

SAMPLE SEMINAR

The Practical Application of the model and organizational consequences

“SAMPLE in the Provinces of Italy”

Warsaw, 24 march 2010

Gabriella Daniele

Office of Innovation and Statistics of Province of Pisa

PROVINCIA DI PISA

Province of Pisa - SAMPLE: statistical ideas

PROVINCIA DI PISA

OBSERVATORY SYSTEM

The Province of Pisa with its **observatory system** is dealing with aspects :

- to process statistical data both territory and environment level
- to analyze the social life aspects to monitor the level of education, health, violence, poverty.

PROVINCIA DI PISA

.....*HOW?*

The Province of Pisa : member of the UPI (Union of Provinces of Italy)

Association that represents all the Italian provinces, performs tasks of enhancement, promotion, technical and political support to associations and to local governments

PROVINCIA DI PISA

..... Contact points

The advantages of partnership with UPI:

- cooperation with Italian National Statistical System (**SISTAN**) and Statistical Tuscany System (**SISTAR**)
- link and permanent systematic coordination between the Italian provinces, in order to facilitate the exchange of experiences and best practices;
- promotion, development, dissemination of culture and high quality statistics applied to the government and its development about all aspects

PROVINCIA DI PISA

SAMPLE

The aim of SAMPLE of monitoring poverty, vulnerability and social exclusion has attracted much interest in the UPI environment

use of the methodology, programs and results replicated on all Italian provinces, supported by all Statistical Offices

new deployment of the project within SISTAN, the National Statistical System, for the period 2012-2013

SAMPLE

Our idea can also be a suggestion to the statistical offices of other countries participating in the project

The analysis of such data across Europe can afford to:

- study in depth the social problem
- identify common and different points of view and resolutions

Thanks

Gabriella Daniele
